

UNIWERSYTET JAGIELLOŃSKI  
COLLEGIUM MEDICUM

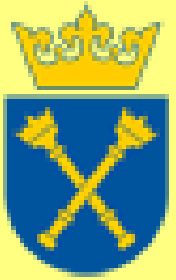

# **Telemedicine as an integral part of the professional training of future doctors**

**Anna Petiurenko  
Ilona Biela  
Anna Kantoch**

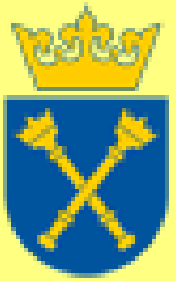

**Since telemedicine systems are actively used in various areas of practical medicine in Ukraine and Poland, the need for professionals involved in telemedicine is becoming apparent**

**Our research and professional activities are aimed at development of competencies in future medical professionals that will allow them to actively use ICT at work (in particular telemedicine and e-health methods)**

**In cooperation with the Geriatrics Clinic and the Department of Bioinformatics, a system for diagnosing the condition of the elderly has been developed**
